APR 24 2019

FORCE ORDER 3000-52.1

From: Commander
To: Distribution List

Subj: TRAINING EXERCISE AND EMPLOYMENT PLAN, TRANSPORTATION OF
PERSONNEL, TRANSPORTATION OF THINGS STANDING OPERATING
PROCEDURES

Ref: (a) MCO 7300.21B
(b) CJCSI 3511.01A
(c) MCO 1001R.1L
(d) ForO 4000.2A

Encl: (1) TRAINING EXERCISE AND EMPLOYMENT PLAN, TRANSPORTATION OF
PERSONNEL, TRANSPORTATION OF THINGS STANDING OPERATING
PROCEDURES

1. Situation. Marine Forces Reserve (MARFORRES) units and designated Staff sections will use the Training Exercise and Employment Plan, Transportation of Personnel, Transportation of Things (T3) Program to identify units, personnel, equipment and resources required to execute training exercises, deployments, and other events in accordance with this Standing Operating Procedure (SOP) and all references.

2. Cancellation. Force Order 3502.1 Ch 1

3. Mission. To establish policy, responsibilities and procedures for the MARFORRES T3 Program and the use of the T3 database.

4. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent

(a) Purpose. To provide commanders and MARFORRES Staff with a comprehensive program for planning and scheduling training, transportation of personnel, transportation of equipment and accounting for these costs in a single database.

(b) Method. The MARFORRES G-3/5 will update and maintain the T3 database and ensure that all training opportunities and resources are properly annotated and available to the Force for tracking in accordance with this SOP.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

(c) End State. All training is properly planned, scheduled and conducted with all resource costs captured.

(2) Concept of Operations. The MARFORRES G-3/5 is responsible for the operation and maintenance of the T3 database and provides oversight of the MARFORRES Training Exercise and Employment Plan (TEEP). Major Subordinate Commands (MSC) will input all training events into the T3 database and account for all resources.

b. Subordinate Element Missions

(1) Assign sufficient personnel duties to ensure effective and efficient use of T3.

(2) Ensure personnel assigned T3 responsibilities complete computer based training.

(3) Adhere to the policies and procedures contained herein to plan and execute unit training.

5. Administration and Logistics

a. MARFORRES units and individuals activated in support of contingency operations, combatant commander security cooperation deployments, or in response to disasters or emergencies in the United States must submit requests via T3, unless Defense Travel System (DTS) is authorized for transportation, prior to transfer and upon return from the Gaining Force Command (GFC). Preplanned and rotational activations are subject to the timelines in this SOP. Emergent requirements will be dealt with as required for mission accomplishment. Upon being designated as under Operational Control (OPCON)/Administrative Control (ADCON) to the GFC, MARFORRES sourced units and individual augmentees will be subject to the SOPs and directives of the GFC.

b. This SOP is not applicable to Reserve and Active Component/Active Reserve Marines and Sailors using DTS to schedule travel for a Non-TEEP funded event.

c. Recommendations concerning the content of this SOP should be submitted via the chain of command to the AC/S G-3/5.

6. Command and Signal

a. Command. This SOP is applicable to Marine Forces Reserve.

b. Signal. This directive is effective the date signed.

B. S. JAMES

DISTRIBUTION: D
Directives issued by this Headquarters are published and distributed electronically.

Chapter 1

Introduction

1. Policy. The T3 database serves as a management tool for the Commander and is designed to identify required units, personnel, equipment and other resources for the efficient and effective execution of TEEP funded training exercises or events. Additionally, the T3 is used to monitor events not utilizing TEEP funds; these events are referred to as Non-TEEP funded events. Non-TEEP funded events require the use of T3 database to account for transportation of personnel, equipment and supplies. T3 is the only method of reserving commercial transportation for reservists outside of DTS.

2. Scope. This SOP provides a comprehensive and iterative approach to T3 construction and management. Managing and accounting for the funding of exercises and training to include the movement of personnel, equipment and supplies is the primary purpose of the T3 database. Funding is often the key factor in determining the level of MARFORRES participation in exercises and training events. For this reason, it is imperative that Training Officers/Chiefs take their responsibilities seriously to ensure MARFORRES achieves the maximum training value for each dollar. This SOP will cover both TEEP funded and Non-TEEP funded events recorded for documentation and accountability in the T3 databases.

3. Responsibilities

a. Assistant Chief of Staff (AC/S), G-1

(1) Provide oversight and subject matter expertise regarding the creation of Marine Resource Order Writing Service (MROWS) and DTS Orders.

(2) Establish procedures to ensure administrators assigned across the force are trained to write and create MROWS and DTS Orders correctly with proper funding data and T3 information.

(3) As required, provide a MROWS subject matter expert to conduct status of orders review with the MARFORRES G-3/5, G-4, and Comptroller.

(4) Provide subject matter expertise as a voting member of the T3 Configuration Control Board (CCB).

b. AC/S, G-3/5

(1) Operate and maintain the MARFORRES T3 database.

(2) Conduct an annual TEEP Conference with Major Subordinate Commands (MSC) in order to determine funding for MARFORRES

participation in Joint, Service and MARFORRES required training and establish the basis for funding controls for the MSCs.

(3) Publish annual TEEP funding controls to the MSCs.

(4) Provide funding oversight of the MARFORRES TEEP.

(5) Recommend exercises and events to COMMARFORRES to be included in the TEEP. Recommendations will be based on mission analysis that highlights exercise objectives and training benefits for MSC/MSEs participation as it relates to force generation model.

(6) Report the status of TEEP execution to COMMARFORRES, quarterly.

(7) As required, conduct status of funds review with the Comptroller and MARFORRES G-4 to ensure TEEP expenditures remain within approved budget authorizations.

(8) Ensure funding for the TEEP is planned, programmed and budgeted via coordination with the Command's Program Objective Memorandum (POM) Officer and executed in accordance with the SOP.

(9) Publish Exercise Directives for all Combatant Commander, Service Level and MARFORRES sponsored exercises or events that have multiple MSC participation to ensure the dissemination of clear, concise and accurate information as it relates to those requirements. At a minimum, the Exercise Directives will contain the following information:

(a) Exercise/Operation name.

(b) Mission Essential Tasks (METs) intended to be accomplished.

(c) Concept of Operations for logistics, medical, communications, etc.

(d) Participating unit(s) and manning numbers.

(e) Date range to include any key dates, i.e. planning conferences and Post Deployment System Support.

(f) Command relationships.

(g) Order writing guidance to include date/location of movement requirements.

(h) Orders funding guidance. In the event the orders to be issued are supported by DTS and funded by another command, this funding guidance will also provide DTS cross organization funding and routing list requirements.

(i) External support required, i.e., contracting, environmental, etc.

(10) Establish a T3 CCB to review and approve system requirements, modifications, and other software changes. Standing membership includes representatives from MARFORRES G-1, G-3/5, G-4, and Comptroller and advisory representatives from IMKM and G-6 as needed.

c. AC/S, G-4

(1) Coordinate and schedule transportation requirements for TEEP and Non-TEEP funded events when approved by the G-3/5 in the T3 database.

(2) Serve as the senior advisor for coordinating logistics in the T3 database.

(3) As required, provide a Distribution Management Office (DMO) subject matter expert to conduct status of funds review with the Comptroller and MARFORRES G-3/5.

(4) Provide subject matter expertise as a voting member of the T3 CCB.

d. AC/S Comptroller

(1) Provide the MARFORRES G-3/5 with annual TEEP Planning Estimates.

(2) Assist the MARFORRES G-3/5 in Program oversight of TEEP budgeting.

(3) Provide assistance and guidance to the AC/S G-3 at the MSCs on the application of Non-TEEP funding.

(4) As required, provide a Comptroller subject matter expert to conduct status of funds review with the MARFORRES G-3/5 and G-4.

(5) Provide subject matter expertise as a voting member of the T3 CCB.

e. AC/S G-3: 4th Marine Division, 4th Marine Aircraft Wing, 4th Marine Logistics Group and Force Headquarters Group

(1) Ensure funding for the TEEP is planned, programmed and budgeted in coordination with the AC/S G-3/5 and AC/S G-4 and executed in accordance with this SOP.

(2) Ensure expenditures remain within authorized TEEP and Non-TEEP controls.

(3) Forward all TEEP requests and subsequent changes to MARFORRES AC/S G-3/5 via the T3 officer for final approval.

(4) Ensure all MROWS and DTS Orders are created with the proper funding data and T3 information (IAW Chapter 7).

(5) Be prepared to provide a subject matter expert to the T3/TEEP status of funds meeting.

(6) Establish policy to ensure information entered in the T3 database is accurate, complete and up to date.

(7) Provide oversight for your units as they plan and execute TEEP funded events.

(8) Publish Exercise Directives for MSC sponsored exercises or events. At a minimum, the Exercise Directives will contain the information specified in paragraph 3.a.9. above.

(9) Track and maintain Key Supporting Documents for individual MSC transportation events.

Chapter 2

Development of TEEP and Non-TEEP Events

1. Introduction. The T3 database is the MARFORRES Program of Record designed to identify required unit, personnel, equipment and resources for the efficient and effective execution of training exercises and exercise deployments. Inputs to the T3 database include both TEEP and Non-TEEP funded events allowing the Command to track the use of resources and define requirements for approved unit participation in a training event. The T3 database provides visibility of all events in a given fiscal year.

2. Background. The process of placing exercises and TEEP funded events begins with MARFORRES participation in the Global Force Management (GFM) process via the Service (Plans, Policies & Operations (PP&O)) directed and Marine Forces Command (MARFORCOM) hosted quarterly Force Synchronization Conferences (FSC). All geographical MARFORs and all the MEFs are represented and present their force requirements. MARFORRES sends planners from the G-3/5 Regional Operations and Plans Division as well as planners from the MSC respective G-3/5s. The Force Synchronization Conference is where Joint and Service exercise requirements are identified and sourced in addition to Theater Security Cooperation (TSC) events, Active Component support requirements to also include contingencies and community relations events, e.g., New York City Fleet Week. These events are captured in the USMC Force Management Tool (formerly known as Playbook) and the MARFORRES/MSC planners will identify personnel, equipment and funding requirements in the T3 Database. Additional requirements for the T3 database will also include Non-TEEP funded events which are usually coordinated internally at MSC/MARFORRES TEEP Conferences.

3. Prioritization for TEEP Funded Events. Prioritization of TEEP funded events will align with MARFORRES sourcing priorities. The primary sourcing priority for MARFORRES planners at the Force Synchronization Conference is augmentation/reinforcement of active component units engaged in combat operations followed by other GFM requirements also requiring activation of Reserve units and detachments. While activations are not funded through the TEEP, the TEEP is the source of funds for pre-activation pre-deployment training events. Priority GFM activations will be followed by exercises. Exercise priorities are as follows: (1) GFM Chairman of Joint Chiefs of Staff (CJCS) Exercises, (2) ITX-Reserve, (3) other Service Level Training Exercises (SLTEs) and (4) bilateral exercises. The following are considerations for planners when sourcing exercises:

- a. Provides pre-deployment training for activation units.
- b. Provides training to unit METs.

- c. Provides OPTEMPO relief to the Active Component.
- d. Availability of Joint or Combatant Commander Theater Security Cooperation (TSC) funds.
- e. Provides integrated training with Active Component.
- f. Exercise can be funded by MSC or MARFORRES TEEP allocation/budget.

4. Authorized TEEP Events. Below types of events are authorized for inclusion in the MARFORRES TEEP:

- a. MARFORRES sponsored events: COMMARFORES designated mandatory events for assigned MSC units, i.e. Integrated Training Exercise (ITX).
- b. Joint Exercise Program events as listed in the Joint Training Information Management System (JTIMS).
- c. Events, other than JEP exercises that involve joint participation of Reserve units and other Service units.
- d. Events, other than JEP exercises, that provides direct OPTEMPO relief to an active duty unit.
- e. Integrated Training: Events involving participation of Reserve and Active Component units.
- f. Innovative Readiness Training (IRT): Events that derive training value to a unit while utilizing its organic capability to provide a community benefit.
- g. Deployment for Training OCONUS events.
- h. MSC directed training exercises.
- i. Unit training as it relates to exercises. Individual skills, licensing courses and training symposiums do not qualify as TEEP events.
- j. Conferences supporting any of the above events. The number of conferences for any single event is dictated by MARFORRES or the respective MSC and is dependent on the availability of funds.

5. TEEP Budgeting Process

- a. MARFORRES will host a TEEP conference to identify requirements for TEEP funding in the following fiscal year. The requirements will be submitted to the MARFORRES Comptroller who will publish fiscal guidance in the July/August time period based on requirements and funds available. The guidance will include funding estimates for the

TEEP. These figures are only estimates to allow for planning, however the estimates may be adjusted by the Comptroller based on availability of funding.

b. The MARFORRES G-3/5 T3 Manager uses the guidance in the planning estimates as the basics for the submission of the upcoming FY TEEP Spend Plan into the Memorandum Fiscal Services (MFS) database.

c. The TEEP Spend Plan is developed by funding category, quarters, and MSC. The MSCs are then provided their allotment of funds for planning. The MSCs initially prioritize their TEEP funding based upon COMMARFORRES mission priorities, after which the MSCs prioritize their remaining TEEP events for funding.

d. Upon the sourcing of a unit as the TEEP event participant, that unit will estimate the funds required by fiscal category (ADOS, TAD, TOT, TOP, etc.) and enter a TEEP request into the T3 database. Once the request has been submitted, it will process via the TEEP approval chain contained within the T3 and if approved, funds will be available for execution.

6. Non-TEEP Funded Events. The T3 database is also used to track many events that do not qualify as TEEP funded events. These Non-TEEP funded events are funded separately, have separate budget lines and are not included in the TEEP planning estimates or TEEP Spend Plan.

7. Authorized Non-TEEP Funded Events. Below are types of events authorized for inclusion in the T3 database to account for funded travel of personnel, equipment and supplies but funded separately:

a. Schools and specialized training, i.e., combatant commander required in preparation for an activation.

b. Professional Military Education and other formal schools.

c. Redistribution of equipment between MARFORRES units.

d. Shipments of supplies using Small Package Program (FedEx UPS, etc.)

e. Administrative travel for personnel, i.e., TAD not associated with TEEP events.

f. MARFORRES Band movements.

8. Non-TEEP Budgeting Process

a. The MARFORRES Comptroller will publish fiscal guidance in the July/August time period based on requirements and funds available. The guidance will contain the planning estimates for the upcoming fiscal year to include estimates for Non-TEEP funded events. Planning estimates are given to program managers of Non-TEEP funds, e.g.,

Formal Schools Manager and the MSCs to plan for the upcoming fiscal year. These figures are only estimates to allow for planning; however, the estimates may be adjusted by the Comptroller based on availability of funding.

b. The MSCs, their subordinate units, and program managers register these funding requirements in MFS database.

Chapter 3

TEEP Exercise Funding1. Introduction

a. Due to the multiple ways Reserve participation in Chairman of the Joint Chiefs of Staff (CJCS), Service and MARFORRES training events can be resourced, funding TEEP events can be both complex and confusing. Additionally, the availability of funds can be a primary determinant of the level of MARFORRES participation in training events. At the beginning of each fiscal year the MARFORRES T3 Manager provides the MSCs with their funding controls based on requirements developed at the Force Synchronization Conference (FSC) and MARFORRES TEEP Conference. The controls are given by MSC, by quarter and by funding category. Commanders will prioritize their training events in line with priorities set by the chain of command and are required to operate within the limits of their respective TEEP controls.

b. With few exceptions, there are two major appropriations for funding Reserve training at MARFORRES. These are Reserve Personnel Marine Corps (RPMC) or Budget Execution Authority (BEA) 1108; and Operations and Maintenance Marine Corps Reserve (OMMCR) or BEA 1107. While reference (a) discusses in detail the different categories of funding, the following describes the funding streams used in creating/scheduling TEEP funded events and how they are applied, to include the Budget Execution Sub Authorities (BESA) and the appropriate Program Identifiers (PIDs) to be ran in the Marine Resource Order Writing Service (MROWS).

2. Reserve Personnel Marine Corps (RPMC or 1108 funding). RPMC includes funds for TEEP Active Duty Operational Support (ADOS) and Reserve Travel.

a. TEEP ADOS (1108 sub-category designated 2732 funds).

(1) Funds pay and allowances, per diem and travel for reservists.

(2) RPMC funded ADOS can be used to place Reserve planners on orders for TEEP events or to fund costs of reservists on active duty beyond the normal 15 day annual training (AT) period.

(3) The program identifier (PID) code is PID 3 in MROWS.

(4) TEEP ADOS orders require DTS for travel authorization and transportation, but a T3 TEEP request is still required to access funding.

b. Reserve Travel (1108 sub-category designated 2731 funds). Funds AT Travel, contract AT billeting, Inactive Duty Training (IDT)

travel and per diem for offsite drills and chartered buses for drill weekends. The following applies:

(1) AT Travel funds travel and per diem for individual reservists on AT. PID 1 code in MROWS.

(2) Group Commercial Travel funds travel and per diem for reservists on AT traveling in groups of 2 to 99 passengers. Group Commercial TOP requests are submitted through T3 database. PID 1 code in MROWS.

(3) Commercial Charter also funds travel for reservists on AT traveling in groups of 100 or more.

(4) AT billeting funds contracted billeting while on AT.

(5) Offsite Inactive Duty Training (IDT) travel funds travel and per diem for reservists while on an offsite drill. The offsite drill must be in direct support of an approved TEEP funded event. PID 2 code in MROWS.

(6) Chartered buses provides funding for bus movements on drill weekend. TOP request must be submitted through T3 database.

3. Operations and Maintenance Marine Corps Reserve (O&MMCR or 1107 funding)

a. Exercise Support Funds.

(1) Exercise Support Funds pay for consumable materials commonly known as "Bill of Material" in addition to services supporting the units in executing TEEP funded events. Exercise Support Funds are authorized for COMMARFORRES approved exercises or unit ATs.

(2) Classes of Supply that are funded through the Exercise Support include: Class III, Petroleum, Oil & Lubricant (POL); Class IV Construction Material; Class IX repair part blocks and secondary repairables; contract services such as port-a-johns, dumpsters, fuel, telephone, etc., contract maintenance support, leased vehicles, garrison mobile equipment (GME) vehicles, and hazardous material disposal; and Class VIII medical supplies in the form of Authorized Medical Allowance List/Authorized Dental Allowance Lists (AMAL/ADAL) replenishment.

(3) Exercise Support Funds are intended for direct support of approved TEEP funded exercises.

(4) Exercise Support Funds are authorized to be used for a unit's drill weekend, unless the IDT is in direct support of an approved TEEP funded exercise.

b. Temporary Additional Duty (TAD). TAD funding covers travel and per diem for Active Component (AC) and Active Reserve (AR) Marines traveling on missions in support of Reserve participation in authorized TEEP events in T3. TAD funding also covers travel and per diem for active duty and reserve Navy personnel assigned to Marine reserve units.

c. Transportation of Things (TOT). TOT funding pays for transporting equipment and/or supplies. TOT requests must be approved in the T3 database prior to equipment shipment for all TEEP events.

d. Post Exercise Maintenance (PEM). PEM funding provides money to cover the cost to repair equipment used in support of a TEEP event. Units are required to perform both pre- and post-exercise Limited Technical Inspections (LTIs) and register the results in GCSS-MC. The pre-LTI will be loaded into GCSS-MC prior to execution while the post-LTI is to be uploaded into GCSS-MC within 30 days of completing the exercise. Coordination between exercise planners and the MARFORRES T3 Manager is required as PEM events are created at the MARFORRES level by the T3 Manager.

4. Joint Exercise Program (JEP) Funding (0100 funding)

a. Commercial Ticketing Program (CTP)

(1) CTP is only used in support of CJCS exercises as defined in reference (b).

(2) CTP funds commercial airline tickets in support of a JEP sponsored exercise. Note: CTP only funds the airline ticket; it does not fund per diem.

(3) To receive CTP, the unit must be listed in the exercise Time Phased Force Deployment Data (TPFDD) and authorized by the supported MARFOR.

(4) For SMCR individual or group commercial travel use PID CTP code in MROWS in combination with PID 1 pay & allowances and per diem or PID CTA code if used in combination with PID 3 ADOS pay & allowances and per diem.

b. Service Incremental Funding (SIF)

(1) Only used in support of CJCS exercises.

(2) Covers cost of travel and per diem while attending CJCS sponsored planning conferences. Does not cover pay and allowances for reserve personnel.

(3) AC and AR personnel, to include active duty Navy personnel assigned to MARFORRES, will be funded through Defense Travel System (DTS) cross organization code established by the supported MARFOR.

Units must submit a roster of travelers via MARFORRES G-3/5 for approval by the supported MARFOR.

(4) Reserve personnel will be funded through MROWS using PID SIF for travel and per diem, while PID 3 must be used for pay and allowances (P&A). Units must submit a roster of travelers via MARFORRES G-3/5 for approval by the supported MARFOR.

(5) SIF covers the cost of Bill of Materials (BOM) for participating units in CJCS sponsored exercises. Funds are provided directly to the unit through the MARFORRES G-3/5 and the Comptroller. Units are not authorized to use TEEP Exercise Support Funds for BOMs to be paid for with SIF. If the unit programs Exercise Support Funds when SIF is the appropriate funding stream, the unit cannot be reimbursed and the money will be decremented from their MSC Exercise Support fund allocation.

(6) SIF also covers the cost of Exercise Support requirements paid to the host nation by the supported MARFOR. The use of TEEP Exercise Support Funds for CJCS exercises is not authorized.

5. Innovative Readiness Training (IRT)

a. Operations & Maintenance (O&M)

(1) O&M for IRT funds TAD costs for active component and active reserve personnel participating in IRT sponsored projects.

(2) O&M for IRT funds TOT and Exercise Support costs for authorized IRT projects.

(3) O&M for IRT funds the travel and per diem for reserve personnel on long-term IRT ADOS.

(4) Requests for IRT O&M funds are made through the T3 database.

b. ADOS

(1) IRT funding will provide funds for Selected Reserve IRT Project Managers to be assigned to active duty via long-term ADOS (30 to 365 days) to provide continuity in support for the projects.

(2) IRT funding will provide funds for conference attendance and short term ADOS for reserve personnel.

(3) The code to use in MROWS is PID IRT.

6. Active Component ADOS Funding for Reserve Support

a. Provided by the supported MARFOR and pays for pay and allowances for reserves on active duty in direct support of the Active

Component. Funding is sourced from active component Military Personnel Marine Corps (MPMC) ADOS allocated to the MARFORs for reserve augmentation.

b. Additionally, the travel or per diem associated with ADOS requires O&MMC from Active Component to pay for travel and per diem via DTS.

7. Extended Annual Training (AT)/Split AT/Additional AT

a. The standard AT period is 14 days plus one day for travel for a total of 15 days as defined by reference (c). With approval of COMMARFORRES G-3/5, the standard AT can be extended up to 29 days inclusive of travel. The total number of AT days shall not exceed 29 days at any time.

b. A "Split" AT divides a standard AT into two separate periods, the total number of days cannot exceed 15 days. MSC G3s can approve split ATs without MARFORRES approval. IAW reference (c), an AT may only be split once.

c. An "Additional" AT is a second AT of 15 days; the total number of days for both the first and second ATs cannot exceed 30 days. Extended AT days cannot be used for an additional AT.

d. Priorities for Extended ATs and Additional ATs

(1) Pre-mobilization training in support of war time operations and contingencies.

(2) CJCS sponsored exercises.

(3) Non-CJCS OCONUS exercises when approved by COMMARFORRES.

(4) Other events as determined by COMMARFORRES.

e. At the start of each FY, MARFORRES G-3/5 will publish a list of COMMARFORRES approved extended ATs, to include duration.

f. Requests for extended ATs and Additional ATs must be approved by MSC Commanders and submitted to COMMARFORRES via Automated Messaging Handling System (AMHS). Requests must include a justification, number of Marines, total number of AT days for each Marine and the impact on the unit if the extension is not granted.

g. Extended AT and Additional AT orders submitted in MROWS must be approved by MARFORRES G-3/5 with the approval of the exercise by COMMARFORRES. Orders must contain the TEEP event number and the proper Special Interest Code (SIC) identifying the exercise.

Chapter 4

Non-TEEP Funding

1. Introduction. Funding executed within the T3 database that is not associated with TEEP authorized events will be considered non-TEEP funded events. Tracking non-TEEP funding within the T3 database ensures the Command is able to capture the transportation costs of personnel, equipment and supplies not associated with the TEEP. Non-TEEP funding and TEEP funding added together provides a holistic picture of the cost to train the Selected Marine Corps Reserve. Funding for non-TEEP transportation requirements can be funded using O&MMC via MARFORRES OCO allocation, RPMC for schools funding and other personnel movements articulated below or O&MMCR for movement of equipment and supplies.

2. Overseas Contingency Operations (OCO 1106 O&M)

a. The Office of the Secretary of Defense (OSD) designates which overseas operations qualify for OCO funding. Operations that employ activated and mobilized MARFORRES personnel in order to participate in military actions, operations or hostilities against an enemy of the United States qualify for OCO funding and activations are generally conducted under Section 12302, 10 U.S.C. authority.

b. OCO funding supports travel & per diem as well as purchases of supplies in support of mobilization requirements.

c. Requirements for OCO funding will be identified on the "Mobilization Funding" line of the Expense Categories page of the TEEP request.

3. Schools Funding (1108 RPMC)

a. Refresher and Proficiency Training (PID RPT) is the primary funding source for formal schools with the exception of Reserve Professional Military education (RPME). RPT funds pay and allowances, travel and per diem. RPT funding should be identified as PID RPT on the MROWS orders.

b. Career Development Training (PID CDT) funds Professional Military Education (PME) programs within MARFORRES. The RPME courses are institutional requirements for promotion eligibility. CDT funds pay and allowances, travel and per diem. CDT funding should be identified as PID CDT in the MROWS orders.

c. When submitting a TEEP request to support Formal Schools, identify requirements on the "Schools Funding" line of the Expense Categories page of the TEEP request.

4. Other Non-TEEP RPMC Funding. The following is a list of known non-TEEP events that are tracked through the T3 database and cover pay and allowances, travel and per diem for reservists, unless DTS is used for the travel authorization.

a. COMMARFORRES ordered Legal/Court Martial (witnesses or members) use PID CM in MROWS.

b. Funeral Honors use PID G in MROWS.

c. Marksmanship use PID H in MROWS.

d. Service or Mission Support use PID F in MROWS.

e. Global War on Terrorism use PID GWT in MROWS.

f. Inspections use PID INS.

g. Boards and Conferences use PID J in MROWS.

h. Operational Training use PID Q in MROWS.

5. Operational & Maintenance Marine Corps Reserve (O&MMCR 1107)

a. O&MMCR funding covers the transportation of things (TOT) in support of non-TEEP funded requirements.

(1) The funding can be used for the redistribution of equipment and supplies.

(2) O&MMCR also funds maintenance of equipment not associated with approved TEEP funded exercises.

(3) Additionally, it funds Third Party Delivery System (TDS) such as FEDEX, UPS and DHL which is also known as the Small Package Program (SPP)

b. Types of shipments funded by O&MMCR include:

(1) Cargo Movement Operations System shipments

(2) Non Cargo Movement Operations System shipments

(3) Transport Distribution Service shipments

Chapter 5

T3 Logistical Considerations

1. Introduction. To the logistician, the T3 is viewed as a planning and budgeting document that identifies the key logistical considerations of TOT, TOP and sustainment through Exercise Support and Post Exercise Maintenance. All of these considerations are essential during the planning process in order to preserve optimal training opportunities at minimal cost. Refer to reference (d) for detailed instructions on policy and procedures for logistical issues.

2. Transportation of Things (TOT)

a. Units are required to submit accurate dimensional data of length, width, height, weight, NSN and nomenclature of items to be shipped. This information will determine mode of shipment. A "Small Package" is defined as any shipment under 150 pounds that does not exceed a girth (length + width + height) of 130 inches or a value of than \$50,000. Any shipment outside these parameters will be shipped as general cargo. For OCONUS (includes Alaska, Hawaii, and Puerto Rico) locations, the weight should not exceed 300 lbs. and no single package should exceed 119 inches in length and 165 inches in length and overall size (L,W,H) combined.

b. TOT funds the movement of equipment and supplies to exercise location and Ports of Embarkation (POE).

c. Submission Deadlines for Receipt of TOT requests by DMO

(1) 60 days prior to shipment date for OCONUS.

(2) 30 days prior to shipment date for CONUS.

(3) 7 days prior to shipment date for Small Package Program (SPP).

d. Requests must be submitted into the T3 database as a TEEP funded or Non-TEEP funded request. T3 request must be approved before movement will be scheduled.

e. Each MSC is responsible for ensuring a signed DD1149 is either T3 generated or attached to the TOT request. The DD1149 must have a valid Transportation Account Code (TAC) assigned by the MSC G3 and the signature of the MSC TAC approver who is appointed by the MSC Chief of Staff. Additionally, the MSC G3 is responsible for submitting to DMO a list of TAC approvers, which will be used to match and for ensuring each DD1149 has been properly approved for the commitment of funds. Any request missing this information will be cancelled by DMO.

f. Weapons and sensitive material can only be shipped utilizing a Surface Deployment and Distribution Command (SDDC) approved bonded

carrier. For any bonded cargo (i.e. weapons and controlled cryptographic items (CCI)), units must provide federal national stock number, nomenclature, serial number, controlled inventory item code (CIIC), and security risk category (SRC) for each item. Only approved serialized bolt seals (NSN: 5340-01-260-9935, 5340-01-542-7347, 5340-01-542-7359) are utilized when transporting cargo requiring Transportation Protective Services (TPS). Note: for additional security, the shipper may employ a cable seal (NSN: 5340-00-084-1570) to the top of the container. Personnel receiving weapons and sensitive material must be pre-designated Responsible Officers, assigned in writing, and members of the unit's advance party. Direct all questions to the MARFORRES G-4.

g. Units are required to submit receipt of signed Bill of Lading into T3 within 3 working days of delivery. Additionally, for bonded cargo, units are required to submit a signed signature and tally record (DD form 1907), a signed and completed motor vehicle inspection (transporting hazardous materials) (DD form 626), and a copy of the driver's license (front and back). Units must ensure that block 14 (satellite motor surveillance system) is checked on the DD form 626. These additional documents must be submitted into T3 within 24 hour after delivery. The MSCs are ultimately responsible for ensuring this process is completed.

h. Units are reminded that all shipments that are packed, crated, and/or containerized must contain a complete DD form 1750 (packing list) of all contents. The serial number is required to be annotated on the DD1149 and/or packing list for all serialized gear. All equipment must be fully accounted for on the DD 1750 so that all contents can be declared to file any potential Transportation Discrepancy Reports (TDR) for lost, pilfered, or damaged cargo and equipment while in transit.

i. Units are reminded that TOT requests requiring commercial truck line-haul must include a load plan. Ensure the retrograde cargo data takes into account all consumables used during an exercise. Load plans will identify the desired type of carrier equipment (e.g. 48' flatbed, lowboy with ramps) required to execute shipment. All additional support requirements, if required, will be identified on the TOT request (e.g. MHE, ramps, crane, and forklifts).

j. Close communication must be maintained between the unit, receiving DMO, and MARFORRES DMO when dealing with bonded cargo. No shipment will be executed unless there is confirmed, in writing (T3), verification that qualified or authorized personnel (i.e. armorer, CCI custodian, etc.) will be present to receipt for the shipment. Maximum effort must be made to utilize DMO installations as receiving points. In situations where Home Training Centers (HTCs) are not co-located with a servicing DMO, they must communicate to MARFORRES DMO, in writing (T3), that unit assumes receiving responsibility for the cargo prior to MARFORRES DMO approving the movement.

3. Transportation of Personnel (TOP)

a. All SMCR travelers funded by TEEP/Non-TEEP dollars, and requiring DMO to schedule travel, will need an approved request submitted in T3. This will generate a TOP request for action by DMO. Units must use quality control measures for the traveler's data submitted in TOP requests to avoid reservations and ticketing delays. All TOP requests must have an attached copy of authenticated MROWS orders prior to DMO purchasing a ticket.

b. Reserve Marines using DTS to schedule travel for a Non-TEEP funded event are not required to submit a T3 request.

c. Active Duty/Active Reserve Marines using DTS that do not utilize TEEP funding, are not required to submit a T3 request.

d. Reserve Personnel Marine Corps (RPMC) Travel.

(1) Individual Travel. Commanders of individual reserve travelers on orders that are not eligible for DTS will schedule their travel by submitting a TEEP request in T3 database. Commanders of individual travelers using TEEP funding and executing orders that are DTS eligible, will also submit a TEEP request for funding and schedule their travel in DTS. Non-TEEP funded travelers using DTS will not submit a request in T3. Individuals are not authorized to make travel arrangements outside the servicing Travel Management Company, such as through local travel agencies, websites, or airports.

(2) Group Commercial Travel. Group movements of 2 to 99 passengers. All travelers must be departing from the same location on the same date and time and arriving at the same destination on the same date and time. Requires submission of a TEEP request in T3 database.

(3) Commercial Charter. Group movements of 100 passengers or more within CONUS are scheduled by DMO. Group movements of 100 passengers or more OCONUS are scheduled by the Strategic Mobility Office (SMO) IAW paragraph 4. The below planning factors are pertinent to CONUS commercial charter movements only:

(a) Departure Date.

(b) Passenger count.

(c) Aerial Port of Embarkation (APOE) and Aerial Port of Debarkation (APOD).

(d) Requires submission of TEEP request in T3 database.

(4) Commercial Bus Travel. Commercial bus used for transportation to and from airport or exercise/event location. Buses to and from airport will be scheduled at the same time as the air

movement. Not to be used for in and around training area. Requires submission of a TEEP request in T3. Units are required to complete the DD Form 1341 and upload it to T3. This notifies DMO of the execution of the movement and that satisfactory services were provided. DMO will then proceed with bus payments. Units have 24 hours to submit this form. Failure to submit this form will delay the payment for services and will require justification from the MSC CoS.

(5) Commercial Rental Vehicle. Commercial rental vehicle used to and from exercise/event location requires submission of a TEEP request in T3.

e. Temporary Additional Duty (TAD) Travel. All Active Duty (AD), Active Reserve (AR), US Navy (USN) and Navy Reserve (USNR) utilizing TEEP funding will submit a T3 request and schedule travel in DTS. All Non-TEEP funded TAD travel will schedule travel in DTS and no T3 TEEP request is required.

f. Upon creation of a TEEP request for travel and prior to submission for approval, travel orders (DTS/MROWS) must be generated and submitted through the appropriate level identified below:

(1) DTS. A DTS record must be created and a DTS document name must be established.

(2) MROWS. A tracking number must be generated and routing complete to fund approval.

(3) The Manning Government Travel Request (GTR) attached to the TEEP request must contain the following data:

- (a) Last name, first name and middle initial.
- (b) Electronic Data Interchange Personal Identifier (EDIPI).
- (c) Date of birth.
- (d) Gender.
- (e) Rank.
- (f) MROWS tracking number or DTS document name.

(4) Once the T3 request has been routed through the chain of command and is approved by the MARFORRES or MSC T3 Manager, the DTS/MROWS orders must be authenticated IAW paragraph 3i. in order to avoid a delay in the ticketing process. It is the submitting unit's responsibility to ensure all T3 requests and travel orders are accurate prior to approval.

(5) For group travel, the DMO sends the TOP request back to the MARFORRES/MSC T3 Manager for "Reservations/Offers Approval", the T3 Manager must validate that all passengers on the manifest have authenticated orders. Once the TOP request is at DMO for "Ticketing", any passenger on the travel manifest without authenticated orders will be dropped. If orders are not approved by 15 days prior to departure date, reservations will be cancelled and the unit will have to resubmit the request with MSC CoS waiver. Any new submission within 15 days prior to departure date will also require MSC CoS waiver justifying the late submission.

g. Reservations/Ticketing Process.

(1) Unless limited by external constraints, reservations will be made within 5 to 10 days of receipt of the TOP request.

(2) Unless limited by external constraints, ticketing will occur within 10 days of date of travel. Ticket cost will be charged against the Centrally Billed Account (CBA). To avoid credit card declines and reservation cancellations, it is the traveler's and Agency Program Coordinator's (APC) responsibility to ensure the IBA is activated at the time the DTS/MROWS orders are submitted but NLT 10 days before date of travel.

h. Manning and Transportation Changes.

(1) All changes must be submitted, routed, and approved via T3 "Change Request" in order for appropriate action to be taken by DMO. Changes are time consuming and often result in excessive costs. Therefore, requests for date, time, and location changes must be approved by the MSC and must be for official reason and not for convenience, i.e. early termination of TAD.

(2) Cancellation of requests require annotation within the TOP Change Request and remarks only require the verbiage "Cancel this request" and do not require justification or description.

(3) Manning drops require annotation within the TOP Change Request and remarks require the verbiage "Drop Said Name Marine (SNM)" and do not require justification or further description.

(4) New personnel will not be added to an existing TOP request. Units wishing to add new personnel to the manifest will need to submit a new T3 request. To align the new traveler with a corresponding group, annotate the T3 request identification number (ID) and Travel Order Number (TON) within the TOP remarks. Adjudication is required in accordance with the Adjudication Process in this order.

i. TOP Submission Timelines for Non-SAAM flights ("D" equals departure date).

(1) D-65: Group Charter T3 request received by final approver MARFORRES/MSC T3 Manager.

(2) D-60: Group Charter TOP request received by DMO.

(3) D-50: OCONUS Commercial air T3 request (Individual/Group) received by final approver MARFORRES/MSC T3 Manager.

(4) D-45: OCONUS Commercial air TOP request received by DMO with approved or authenticated orders.

(5) D-35: CONUS commercial air/bus TOP request (individual and group) received by MARFORRES/MSC T3 Manager.

(6) D-30: CONUS commercial air/bus TOP request (individual and group) received by DMO with authenticated orders.

(7) D-10: Travelers Government Travel Charge Card (GTCC) IBA activated. A copy of authenticated orders must be attached to the TOP request or DMO will cancel request. A copy of the authenticated orders can be attached to the TOP request any time prior to ticketing.

(8) D-10: DMO ticketing begins.

(9) D-5: DMO ticketing complete.

j. Travel Adjudication Process. Requires email endorsement to be attached to respective TEEP request summary page. Endorsement needs to include operational necessity, acceptance of all associated costs and acceptance of risk caused by lack of carrier availability.

(1) MSC G-3/5 endorsement required for all respective timelines exceeded in above paragraph and up to D-16 of execution.

(2) MSC Chief of Staff (CoS) endorsement required for all respective timelines exceeded that are within 15 days of execution.

4. Strategic Mobility Support to TOP and TOT Requirements

a. The SMO coordinates all strategic airlift (STRATLIFT) through USTRANSCOM. STRATLIFT is utilized to move personnel and equipment to OCONUS locations in support of approved exercises and operations. The SMO receives all TOP and TOT requirements from units and MSCs through the Sea Service Deployment Module (SSDM). It is imperative all data within SSDM is accurate and reflects proper dimensions, weights, passenger numbers, and locations.

b. TOP: OCONUS moves with 100 passengers or more are requested by the SMO utilizing the Special Assignment Airlift Mission (SAAM) Request System (SRS), not T3. Units must still utilize T3 to submit their TOP request for movement from HTC to the POE.

c. TOT: OCONUS moves of organic equipment and supplies (HMMWVs, MTVRs, trailers, QUADCONS, etc.) are requested utilizing SRS if directed to move via air, or an Export Traffic Release Request if directed to move via sea. Data from SSDM is transferred into SRS for sourcing of aircraft or the Integrated Booking System for sourcing surface vessels. USTRANSCOM will allocate the appropriate lift based on the requirement submitted. Units must still utilize T3 to submit their TOT request for movement from the HTC to the POE.

5. Exercise Support (EXSPT)

a. Funding Subhead 1A1A - Operations, Maintenance, Marine Corps Reserve (O&MMCR).

b. Funds material and services requirements for MARFORRES approved exercises or unit ATs.

c. Classes III and IV (BOMs), Class IX block requirements, contract services (port-a-johns, dumpsters, fuel, telephone, etc.), contract maintenance support, leased vehicles, GME vehicles, hazardous material disposal, and Class VIII medical supplies in the form of AMALS/ADALS replenishment.

d. Exercise Support funds are intended for direct support of approved TEEP exercises.

e. Exercise Support is not to be used for a unit's drill weekend, unless it is in direct support of an approved TEEP exercise.

f. Unit must request funds via TEEP request in T3.

6. Post Exercise Maintenance (PEM)

a. Funding Subhead 1A1A - Operations, Maintenance, Marine Corps Reserve (O&MMCR).

b. Funds cost to repair equipment use in support of a TEEP event. Must perform pre and post LTI's and register in GCSS-MC (Pre LTI prior to execution in GCSS-MC and Post LTI uploaded within 30 days upon completion of exercise).

c. Unit must request funds via TEEP request in T3.

d. PEM events can only be created by the MARFORRES TEEP Manager.

Chapter 6

T3 Database

1. Introduction. The T3 database is a web based asp.net application operating in real time with the primary purpose of managing fiscal resources, exercises and the movement of personnel, equipment and supplies. T3 is also the only method of scheduling commercial travel outside of DTS. The database allows training and exercise requirements to be matched with available financial resources in an organized manner that permits Command oversight and approval of each event. There are two types of events in T3; TEEP funded and Non-TEEP funded. Each TEEP funded event must identify unit personnel and equipment requirements, modes of transportation requested, fiscal requirements by fund category and total amount of funds necessary to execute the event.

2. T3 Access

a. Unit training personnel must possess a valid Common Access Card (CAC) and the appropriate access permissions to utilize the T3 database.

b. The T3 database can be accessed through the following URL:
<https://t3.mcidsus.mcids.usmc.mil/>.

c. Permissions can be assigned by the MARFORRES or MSC T3 Managers. Permissions are granted for appropriate level based on a need for access to the T3 data base. Current types of permissions follow:

(1) User permission. Allows the user to create and submit both TEEP and Non-TEEP funded requests.

(2) Read only permission. Restricts user only to be able to view data in the T3 database.

(3) Inactive account. No access.

(4) DMO permission. Provides special access for MARFORRES G4 personnel.

(5) T3 Manager permission. Allows MARFORRES and MSC T3 managers to create of T3 Events as well as create and submit TEEP/Non-TEEP event requests.

(6) Administrative permission. Provides software engineer rights, only.

3. T3 Event/Request

a. The T3 database contains information that provides detailed instructions for training personnel and T3 managers to reference and assist them as they navigate the T3 database. The information is contained in the "T3 Video Training" tab within the T3 database. The information covers both submitting TEEP/Non-TEEP funded requests and creating TEEP/Non-TEEP funded T3 events.

b. Creating a T3 Event. Only the MARFORRES or MSC T3 managers can create T3 events. Below are fundamental elements T3 managers must understand prior to creating an event.

(1) Level of Event. The level of the event will determine whether the TEEP event is created by the MARFORRES T3 Manager or the MSC T3 managers.

(a) Chairman of the Joint Chiefs of Staff (CJCS) exercises or events are those sponsored by the CJCS and will only be created by the MARFORRES T3 Manager. CJCS events use Joint Exercise Program funding such as SIF and CTP. CJCS exercises will be identified as a Force level exercise by using an F-level event number.

(b) A Force level exercise/event is one in support of DOD, Service Level Training Exercises, MARFORRES directed exercises, post-exercise maintenance (PEM) or any event involving more than one MSC. Creation of these exercises in the T3 database will be by the MARFORRES T3 Manager. Force exercises will be identified as a Force level exercise by using an F-level event number.

(c) Non-CJCS OCONUS exercises/events are in support of any exercise executing outside the continental US regardless of scope of the exercise or the number of participating MSCs. Creation of these exercises will be by the MARFORRES T3 Manager. Non-CJCS OCONUS exercises will be identified as a Force level exercise by using an F-level event number.

(d) Innovative Readiness Training (IRT) exercises/events are sponsored by OSD/RA and provide training for our forces while supporting the community. IRT events are created in the T3 database by the MARFORRES T3 Manager. These TEEP events use IRT funds from OSD RA in combination with other TEEP funds. IRT events will be identified as a Force level exercise by using an F-level event number.

(e) Major Subordinate Command (MSC) exercises are those exercises directed by MSC Commanding Generals or their subordinate Commanders within the MSC. The MSC T3 managers are authorized to create these exercises/events within the T3 database. MSC exercises/events will be identified as using an event number corresponding to the MSC creating the TEEP exercise/event. Fourth Marine Division will be identified with a number beginning with a D, Fourth Marine Logistics Group with an M, Fourth Marine Aircraft Wing with a W, and Force Headquarters Group with a G.

(2) Special Interest Code (SIC). SICs are three place alpha numeric codes use to identify the T3 Event, e.g. African Lion SIC = DZ0. It is imperative that the proper SIC is used consistently with the exercise it is associated with to ensure proper management of funds resourced for the exercise.

(3) Manning. Close attention must be paid to the manning documents/personnel requirements to ensure accurate numbers are provided to permit proper estimation of funds required for an exercise/event. As changes occur, the T3 database must be updated. This will ensure the proper amount of fiscal resources is allocated for the exercise.

(4) Expense Categories. T3 managers and training personnel need to have a working knowledge of the multiple types of funding and which exercises and events the funding applies to. Accurate data and the correct categories of funds facilitates approval of T3 requests and the creation of TEEP/Non-TEEP funded events.

Chapter 7

MROWS and DTS

1. Introduction. T3 Event funding is divided into numerous categories and combinations depending on the type of exercise/event being supported. Due to these complexities it is critical that orders be written correctly with the proper funding data and T3 information. Valuable training time and money can be lost when orders are not written correctly. This chapter is to assist order writers in preparing TEEP funded orders in MROWS or DTS.

2. Marine Reserve Order Writing Service (MROWS). The Marine Corps' system of record used to create orders for reserve personnel.

a. TEEP Orders. Orders written in support of a TEEP funded exercises/event.

(1) Orders must contain the TEEP Event Number; a 7 place alpha numeric identifier specific to a TEEP exercise/event, i.e. AFRICAN LION TEEP event number = F23-7870. This information can be obtained from the T3 database or the operations section of the units command.

(2) Orders must contain the SIC; a 3 place alpha numeric identifier specific to a TEEP funded exercise/event, i.e. AFRICAN LION SIC = DZ0. This information can be obtained from the T3 database or the operations section of the units command.

(3) TEEP orders use only the following PIDs:

(a) PID 1 - AT Travel and Per Diem. Funds reservists while on AT.

(b) PID 2 - IDT. Funds reservists travel and per diem while on offsite drill.

(c) PID 3 - ADOS. Funds reservists pay and allowances, travel and per diem while performing additional duty other than AT.

(d) PID SIF. Funds reservist travel and per diem when in support of a CJCS sponsored conference. In MROWS on the travel and per diem blocks, select Command Code as "Force" and PID as "SIF". Use PID 3 for pay and allowances. Cannot be used to support Navy personnel; must use TEEP TAD.

(e) PID CTP/CTA. Funds reservist travel (airline ticket only) when in support of a CJCS sponsored exercise. In MROWS in the travel block, select Command Code as "Force" and PID as "CTP" if reservist is on AT. Select PID as "CTA" if reservist is on ADOS. Does not fund per diem. Use PID 1 for AT or PID 3 for ADOS. Does not fund travel for CJCS conferences. Cannot be used to support Navy personnel; must use TEEP TAD.

(f) PID IRT ADOS. Funds reservist pay and allowances, travel and per diem while in support of an IRT project. In MROWS select the Command Code as "Force" and PID as "IRT".

b. MROWS orders in support of a TEEP and Non-TEEP funded events must be submitted and reach "Pending Fund Approval" status before the TEEP request is submitted by the unit. The travel manifest must include the MROWS tracking number (enter only the 7 digit tracking number) before submitting the TEEP request. If tracking numbers are not included, TEEP request will be denied. A copy of authenticated orders must be attached to the TOP request prior to ticketing. MROWS orders for Non-TEEP funded events that are DTS eligible do not require a T3 request.

c. Liquidation of orders. DD Form 1351-2 (travel claim) or DTS voucher must be submitted no later than 5 working days upon completion of travel by the individual traveler to their administrative support section.

3. Defense Travel System (DTS). Primary system used to create orders on active duty/active reserve personnel while on TAD and reservists executing DTS supported MROWS order-types.

a. TEEP Funded Orders. Orders written in support of a TEEP exercise/event.

(1) TEEP TAD. Funds Active Duty/Active Reserve, Active Duty Navy and Reserve Navy. Funds are requested by submitting a TEEP request in T3, once request is approved, a Financial Information Pointer (FIP) is created and used to create an LOA in DTS.

(2) SIF. Funds AD/AR personnel and DTS eligible reservists on MROWS orders in support of a CJCS sponsored exercises/conference. DTS cross org code will be established by supported MARFOR and traveler will select the proper code to fund travel and per diem. Traveler must submit name, rank, EDIPI and travel cost estimate to MARFORRES G-3/5 action officer in charge of the CJCS exercise/event.

(3) IRT TAD. Funds active duty/active reserve personnel travel and per diem in support of an IRT project. Funds are requested by submitting a TEEP request in T3, once request is approved, a Financial Information Pointer (FIP) is created and used to create an LOA in DTS.

b. Liquidation of orders. DTS Travel vouchers must be submitted within 5 working days after completion of travel by the individual traveler.
